Requirements for the role:

- Bachelor's or Master's degree in Data Science, Statistics, Computer Science, Economics, or a related field.
- Prior work experience or internships involving data analysis or related fields is a plus.
- Proficiency in statistical analysis and the use of various data analysis tools and software.
- Strong skills in programming languages relevant to data analysis, such as Python, R, SQL, or similar.
- Experience with data visualization tools and software (e.g., Tableau, Power BI).
- Ability to clean, manipulate, and analyze large datasets to derive actionable insights.
- Excellent problem-solving skills and attention to detail.
- Strong organizational and project management abilities, capable of managing multiple tasks simultaneously.
- Effective communication and interpersonal skills, with the ability to present complex data in a clear and concise manner to non-technical audiences.
- A proactive approach to learning and applying new analytics techniques and tools.
