

Data Analyst

Arlington, VA / Joint Base Andrews, MD

Air Force / Full Time / Hybrid

Significance is a woman-owned consulting firm serving the federal government. We are known for building trusted relationships within our teams and with our clients and hiring the highest-level experts who implement innovative solutions. We also like to have fun! Our focus on culture has contributed to Significance being named a Washington Business Journal Best Place to Work each of the last five years.

Please note: this position requires an active Secret-level security clearance.

We are seeking a Data Analyst to join our program in support of the US Air Force. Work will be performed on a hybrid basis with onsite support needed at Joint Base Andrews in Maryland as well as Rosslyn, VA. The Data Analyst will assist with the maintenance of the Population Completeness Universe of Transactions (UoT) Framework for Full Financial Statements addressing the accounting transactions and audit requirements necessary to support the all Air Force General Fund Financial Statements via the GF LoG UoT initiative. In this role you will:

- Support SAF/FMF to maintain the UoT strategy and completeness controls based upon transactional level detail and data pathways
- Deploy analytical techniques and toolsets to support the development and review of financial system data (e.g., quantitative drill down) .
- Cleanse, validate, and analyze large data for system optimization in Advana using IQuery and Databricks with Python (PySpark, Pandas) and SQL coding languages
- Develop and implement data output process to ease future processing of the reconciliations
- Generate financial report dashboard for the Air Force and Space Force to view reconciliations

Required Skills/Experience

- Active Secret level security clearance
- Bachelor's Degree in a related discipline
- Minimum 3 years professional experience, preferably supporting DoD or Air Force
- Experience working with large datasets
- Python, PySpark, SQL, or Pandas
- IQuery or Databricks experience
- MS Excel
- Candidates must be currently located in Washington DC/National Capital Region
