

# Data Scientist

Boston, MA

Contract

## Job Description

Data Scientist

Location: Boston, Ma

Duration: 12++ Months

Position description and responsibilities for the Data Scientist position:

- Someone with both statistical modeling experience and technical, engineering skills
- Experienced in Healthcare, and decidedly “hands-on” and not just theoretical.
- Experience or proficiency using statistical modeling tools (e.g. R, Matlab, AML etc.)
- Bring not just an analytics-orientation, but the ability to use analytics to drive key success metrics.

Experience, Position Requirements, Responsibilities:

- Proven mastery of analysis and development of models in the Healthcare industry
- Relevant degree or deep experience in data analysis or Computer Science
- Minimum five to seven years professional experience

Personal Attributes and Characteristics:

- Flexible and resourceful, with a figure-it-out-and-get-it-done mentality; not afraid to make mistakes quickly and course-correct
- Exemplary written and oral skills. Comfortable presenting at the CxO level.

\*\*\*The key is just Healthcare industry as a Data Scientist doing Statistical modeling

## Qualifications

BS Degree
