Who We Are & What We Do

We're working to change the future of online education by building exciting products that equip students and teachers with the tools to succeed in the classroom and beyond. We're a small, hard-working group of self-starters who are passionate about what we do and constantly seek new ways we can be better, together. We were fully-remote before COVID, and creating a healthy remote culture is a key priority for us.

As a member at Teaching.com, you'll be part of the team behind some of the most important educational games, with titles such as:

- Typing.com: The world's largest learn-to-type software, used by millions of students every day.
- Nitro Type: The #1 educational game in the world, played by millions daily.
- Reading.com: The only digital program specifically designed to teach children 4-7 how to read.

Who You Are & What You'll Do

We are looking for an experienced Analytics Engineer who is excited by the prospect of analyzing user engagement and subscription data. You're less concerned with patting yourself on the back for the perfect visualization and more concerned with quickly and efficiently delivering business insights to our team. The ideal candidate has experience tracking subscription metrics, identifying trends in user behavior, and deep SQL expertise.

Why You May Not Like It

If you can't imagine a project management workflow without scrum ceremonies, are intimidated by technology, need a lot of direction, or are risk-averse, this role may not be for you.

Skills & Background

- 3+ years of working in mobile subscription, product engagement, and user acquisition analytics
- 5+ years of working with SQL and data visualization tools
- Passionate about leveraging empathy to understand user needs
- Unafraid to have candid conversations with managers, peers and direct reports
- Flexible, well-organized and experience working in a fast-paced small company environment
- Exceptional communication skills, particularly written (as a remote company, we value clear and concise communication across all departments)
- Able to meet deadlines in a fast-paced quickly changing environment
- Approaches problem-solving proactively with strong decision-making skills
- Positive attitude and entrepreneurial spirit

Bonus Points

- Familiarity with the data coming from RevenueCat, Amplitude, and Braze
- Experience with Airbyte, Snowflake, and DBT

Compensation, Benefits & Perks

- Competitive salary
- Fully-vested 401k with matching contributions
- Annual cash profit sharing
- Medical and dental benefits

- Flexible office hours
- Ongoing education assistance
- Flexible PTO
- Remote office hardware reimbursement
- Company-owned laptop
- Monthly meal adventure
- Annual company retreat

Everyone at Teaching.com is empowered to move quickly, make decisions, and get things done so we can continue to make learning accessible to our growing community of more than 75 million students and teachers internationally.

Join the fully-remote team at Teaching.com to create, develop, and deliver fun and engaging games for students and educators!

Sorry, we will not transfer or sponsor visas.

We are an Equal Opportunity Employer.

We care deeply about the culture at Teaching.com and have put together a [manifesto](#) outlining our values, communication, and product management strategies. Prospective employees will learn a great deal about what it's like to work here by reviewing it.
