- Use graphs, infographics and other methods to visualize data
- Establish KPIs to measure the effectiveness of business decisions
- Structure large data sets to find usable information
- Work with a team of scientists and other associates to process information
- Create presentations and reports based on recommendations and findings

## **Competencies:**

- Technical writing skills
- Analytical and problem-solving skills
- Able to work under pressure, remaining flexible, proactive, resourceful, and efficient with a high level of professionalism and confidentiality
- A positive approach in your outlook with a “can-do” attitude and love for multi-tasking
- A clear communicator and effective relationship builder
- Highly organized with a strong attention to detail
- Reporting and data visualization skills
- Experience with relational databases such as Postgres and MySQL
- Experience with data reporting software such as Tableau
- Experience with data storage, such as Snowflake
- Experience with Google Tag Manager and GA4 preferred

Amaze is committed to fostering a diverse work environment and is proud to be an equal opportunity employer. As we highly value diversity in our current and future employees, we do not discriminate (including in our hiring and promotion practices) on the basis of race, religion, color, national origin, gender, gender expression, sexual orientation, age, marital status, veteran status, disability status or any other characteristic protected by law.

We are a hybrid remote/in-office, international team with multiple office spaces in the U.S. where employees can work and collaborate together, attend large-scale meetings, and host creator events. Our

passion is to bring together a community of people who have a love for product, technology, and a drive to change the world of e-commerce and design.

We encourage everyone who has this passion and energy to apply. We are open to all backgrounds and experiences relevant to our openings and strategy. We are out-of-the-box thinkers. We know the best talent comes from passionate people. If that sounds like you, we would love to hear from you!

If you need reasonable adjustments or would like to note which pronouns you use at any point in the application or interview process, please let us know. We will not accept or review any CVs from external recruitment agencies. Amaze Software and Holding companies participate in E-Verify. E-Verify is a web-based system that allows an employer to determine an employee's eligibility to work in the US using information reported on an employee's Form I-9. The E-Verify system confirms eligibility with both the Social Security Administration (SSA) and Department of Homeland Security (DHS). For more information, please go to the USCIS E-Verify website.
